

ABA Maximum Allowed Amounts (actual calculated amounts, without 15% Max Reduction applied)

NOTE: These rates are displayed for comparison purposes only and since rates are recalculated annually, these rates are unlikely to ever take effect as listed. The rates below are the actual rates calculated, without the 15% reduction cap, so these rates will not be used until the 15% cap no longer applies. The rates have also been adjusted to ensure they are no less than the Medicaid rates in those states who have adopted statewide Medicaid rates for these services. The calculation is completed by adjusting the National Rates presented at the ABA Roundtable (Dec 3, 2015) using the same geographic locality factor used to adjust all TRICARE rates. The rates will be adjusted annually based on the established or newly created statewide Medicaid rates and adjusted to ensure no rate is reduced by more than 15% until the calculated rate applies.

This rate calculation process ensures rates are reviewed and adjusted annually, like all other TRICARE rates. If Medicare establishes rates for the eight CPT codes, those rates will be adopted as required by law.

The actual rates effective in the Spring 2016 are available at www.health.mil/autism.

ABA Maximum Allowed Amounts (actual calculated amounts, without 15% Max Reduction applied)

NOTE: These rates are displayed for comparison purposes only and since rates are recalculated annually, these rates are unlikely to ever take effect as listed. The rates below are the actual rates calculated, without the 15% reduction cap, so these rates will not be used until the 15% cap no longer applies. The rates have also been adjusted to ensure they are no less than the Medicaid rates in those states who have adopted statewide Medicaid rates for these services. The calculation is completed by adjusting the National Rates presented at the ABA Roundtable (Dec 3, 2015) using the same geographic locality factor used to adjust all TRICARE rates. The rates will be adjusted annually based on the established or newly created statewide Medicaid rates and adjusted to ensure no rate is reduced by more than 15% until the calculated rate applies.

This rate calculation process ensures rates are reviewed and adjusted annually, like all other TRICARE rates. If Medicare establishes rates for the eight CPT codes, those rates will be adopted as required by law.

The actual rates effective in the Spring 2016 are available at www.health.mil/autism.
